### Report to the Congress for the Fiscal Year 2009

Section 405(b) of the Foreign Relations Authorization Act, Fiscal Year 2003 (22 U.S.C. § 287b(b)) calls for the Secretary of State to submit an annual report to the Congress “on the extent and disposition of all financial contributions made by the United States during the preceding year to international organizations in which the United States participates as a member.” This report covers United States contributions to international organizations and programs for October 1, 2008 to September 30, 2009.

The amounts reported are actual U.S. contributions made during fiscal year 2009 and include adjustments for credits, Tax Equalization Funds, Working Capital Funds, deferrals, and mandatory reductions (e.g., Palestine Liberation Organization withholdings and other statutory limitations).

International financial institutions such as the International Bank for Reconstruction and Development are not covered in the text or in the total figures, but are the subject of a separate report to the Congress by the National Advisory Council on International Monetary and Financial Policies. Other expenses excluded from the tabular presentation of contributions include the cost to the U.S. Government of the salaries and expenses of American employees detailed to the secretariats of international organizations (e.g., the North Atlantic Treaty Organization).

The graphs summarize U.S. assessed and voluntary contributions to international organizations and programs for fiscal year 2009 in which the United States participates as a member. The accompanying chart provides a detailed tabulation of U.S. contributions by individual organization or program.
